

We estimate that potential membership consists of at least 250 representatives and members of federal, state and local government in the financial management community. The prospective members of the Association of Government Accountants of Olympia attest that the geographical territory as illustrated on the attached map is sufficiently large to include local, state and federal government organizations in which financial management activities are carried on in the state capitol, but small enough to allow members in any part of the territory to attend meetings regularly.

The undersigned request favorable consideration to this petition for membership at the earliest time.
